

**SCHEDULE 6
TO THE PROTOCOL FOR THE COVAX NO-FAULT COMPENSATION PROGRAM
FOR AMC ELIGIBLE ECONOMIES**

**ILLUSTRATION OF REPORTING PERIOD
UNDER THE COVAX NO-FAULT COMPENSATION PROGRAM FOR AMC-ELIGIBLE ECONOMIES¹**

For each Patient, the Reporting Period depends on the date the Vaccine was administered to the Patient. To calculate the Reporting Period that applies to the Patient, the Patient (or the person who is a duly authorized to represent the Patient) needs to:

1. Determine (through Schedule 1 to the Protocol) what is the date of the Scope of Coverage End Point that applies to the Vaccine that was administered to Patient; and
2. Calculate the number of months and days from the vaccination date (i.e. date that the Vaccine was administered to the Patient) until the date of the Vaccine's Scope of Coverage End Point, and add another 36 months. This establishes the Reporting Period that applies to the Patient.

¹ NOTE: A Vaccine must be administered to the Patient before the end of the first 24 months period. An Application in respect of a Vaccine administered **after** this first 24 months period will **not** be receivable for compensation under the Program.
